### Precautions to be taken into account for its conservation:

- Cleaning products indicated for the Stainless Steel are: the soap, detergents soft and / or neutral. Apply with a soft cloth or a sponge of fine nylon, rinse with abundant water and dry with soft cloth.

*Never use abrasive acids because they deteriorate the surface of the sink,*

- Do not use wipes metal, straw-of-steel to clear the surface of the sinks;
- Glues, paints and cement, in contact with the sinks, will cause the corrosion of steel.

**ATTENTION:** beware of sharp metal edges before and during the installation!

- EN13310:2015

**INAREL** assigns a 15-year warranty to all stainless steel solutions, when good basic cleaning and maintenance practices are adopted.
